USER PERSONA

Iván Solís

Buys for the group — the night before.

“We’re going, right? Just let me check there are still seats together — and that it doesn’t get ridiculous with the service fee.”

HE NEEDS

- Seats together for everyone
- The real price before he picks
- Checkout as fast as WhatsApp

HE ABANDONS WHEN

- Fees appear only at the end
- The map fights one thumb
- The timer dies mid-chat

THE MOMENT THAT MATTERS

Friday, 7:40 pm. One bar of signal on the bus. The show is tomorrow. His friends are already asking. If the price jumps or the map stalls, he closes the tab — and the night is over.

"Are they trying to rip me off?"

Afraid of missing out and of overpaying

Worried the seats will vanish while the chat argues

A "Total" that isn't the final amount

WhatsApp messages over the checkout screen

"Together — or don't bother"

"You get them. We'll pay you back."

Losing seats together because the timer ran out

Hidden fees that blow a tight budget

Bad signal blocking the map or the QR at the door
